FOREWORD

The Kentucky Constitution requires each house of the General Assembly to keep a journal as a public accounting of daily legislative activity. It is the official record of action by the General Assembly.

The *Kentucky Revised Statutes* require the Legislative Research Commission to compare, edit, correct, and publish the journals of each chamber. This is the *House Journal* for the Regular Session of 1998.

The texts of simple and concurrent resolutions appear on first reading or adoption. Appendices contain a list of elected representatives, tables of actions on bills and resolutions, roll call votes, the budget memorandum, and a subject index.

Ms. Linda Attkisson and Ms. Gene Wallace prepared the *House Journal* for the 1998 Regular Session. The edited copy and appendices in this volume reflect the cooperative efforts of the LRC Staff.

The Branch Budget recommends additional funding from the General Fund for the following programs: Additional funds totaling $247,500 in FY 1998-99 and $330,000 in FY 1999-2000 are provided for 15 additional victim advocates; additional funds totaling $308,500 in FY 1998-99 and $325,000 in FY 1999-2000 are provided for additional support for administrative hearings; additional funds totaling $109,000 in FY 1999-2000 are provided to replace funds from an expiring federal grant from the Edward Byrne Memorial State and Local Law Enforcement Assistance Program; additional funds totaling $60,000 in each year of the biennium are provided for more frequent cemetery and funeral home audits; and additional funds totaling $200,000 in each year of the biennium are provided for the Victim Witness Protection Program. The Capital Budget recommendation provides for reauthorization of the ongoing lease for office space.

Part IX, Special Provisions of the State/Executive Budget Bill authorizes the Attorney General to present proposals to state agencies specifying legal work that is presently accomplished through Personal Service Contracts that indicate the Office of the Attorney General's capacity to perform the work at a lesser cost and requires agencies to make arrangements with the Attorney General to perform the legal work. Part IX provision also allows the Attorney General to set the salary of the deputy attorney general and the salary of the two assistant deputy attorneys general at a rate less than that required in KRS 15.100, notwithstanding KRS 15.100. The Attorney General is also authorized to request from the Finance and Administration Cabinet, as a necessary government expense, funds necessary for expert witnesses for the Health Care Rate Intervention Program, and the Department of Insurance is directed to provide any available information to assist in the preparation of a rate hearing. The Attorney General is authorized to request from the Governor's Office for Policy and Management and the Finance and Administration Cabinet reimbursement for actual administrative costs related to Asbestos Litigation Recovery which will not exceed $20,000 for FY 1997-98 and a total of $98,500 for FB 1998-2000 and is contingent upon the receipt and deposit of recoveries to the State Treasury after April 15, 1998, sufficient to fund such costs. The Attorney General is also authorized to transfer funds appropriated for victim advocate grants for FY 1998-99 and FY 1999-2000 to the Unified Prosecutorial Systems' appropriation unit subject to approval by the Prosecutor's Advisory Council and the approval of the Governor's Office for Policy and Management, the Finance and Administration Cabinet, and the Interim Joint Committee on Appropriations and Revenue.

HOUSE REPORT

The House concurs with the Branch Budget recommendation with the following exceptions: Additional Federal Funds from the Violence Against Women Act and the Medicaid Fraud Grant totaling $56,000 are provided in FY 1997-98 due to a revised update. Current Services funding from the General Fund for victims advocates services totaling $456,500 in FY 1998-99 and $480,500 in FY 1999-2000, and additional funding from the General Fund for 15 victims advocates totaling $247,500 in FY 1998-99 and $330,00 in FY 1999-2000 are rebudgeted in the Unified Prosecutorial Systems. The House adds Part I language provision relating to the Victim Witness Protection Program that states: Notwithstanding KRS 45.229, any funds appropriated for the Victim Witness Protection program in fiscal year 1998-99 shall not lapse and shall be carried forward into fiscal year 1999-2000.

The House adds Part IX language provisions relating to the Tobacco Rebate Program, Asbestos Litigation Reimbursement, Annual and Sick Leave Service Credit, and Tobacco Settlement Account as follows: (1) Tobacco Rebate Program: Any fund balance in the Tobacco Rebate Account maintained by the Office of the Attorney General, as of June 30, 1998 shall be expended pursuant to Administrative Order 97-4. At least 30% of the fund balance shall be for agricultural equipment to address labor market shortage areas, (2) Asbestos Litigation Reimbursement: Any asbestos litigation funds received in excess of the amounts specified above, up to a maximum of $145,000 in fiscal year 1998-99 and $145,000 in fiscal year 1999-2000 shall be transferred to the Unified Prosecutorial System for prosecutorial training subject to procedures and conditions contained in Part III, (3) Annual and Sick Leave Service Credit: Notwithstanding any statutory or regulatory restrictions to the contrary, any former employee of the Unified Prosecutorial System who has been appointed to a permanent full time position under KRS 18A shall be credited annual and sick leave based on service credited under the Kentucky Retirement System. This provision shall only apply to any new appointment or current employee as of July 1, 1998, and (4) Tobacco Settlement Account: There is created in the State Treasury a tobacco settlement account to be credited with any funds received from a national settlement agreement between the tobacco industry and the Attorney General or any federal legislation related to the agreement. Any funds from the settlement agreement or related federal legislation shall not be expended until appropriated by the General Assembly. The General Assembly's highest priority for distributing any funds from this account shall be for tobacco farmers and tobacco-impacted communities and health-related areas. The House deletes the Part IX language provision relating to Victims Advocate Funding Transfer.

SENATE REPORT

The Senate concurs with the House with the following exceptions: The Part IX language provision relating to the Tobacco Settlement Account is moved to Part III General Provisions and is reworded as follows: There is created in the State Treasury a tobacco settlement account to be credited with any funds received from a national settlement agreement between the tobacco industry and the Attorney General or any federal legislation related to the agreement. In recognition of Barren County as the number one burley county in the Commonwealth, consideration should be given by the General Assembly to appropriate funding for an agricultural arena and market from any funds credited to the tobacco settlement account. Any funds from the settlement agreement or related federal legislation shall not be expended until appropriated by the General Assembly. The General Assembly's highest priority for distributing any funds from this account shall be for tobacco farmers and tobacco-impacted communities and health-related areas.

CONFERENCE REPORT

The Conference concurs with the Senate with the following exception. The Part III language provision relating to the Tobacco Settlement Account is modified to delete the sentence recognizing Barren County as the number one burley county in the Commonwealth and recommending that consideration should be given by the General Assembly to appropriate funding for an agricultural arena and market from any funds credited to the tobacco settlement account.

BUDGET MODIFICATION REPORT
BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs in FB 1998-2000 with the following exceptions: Additional Restricted Funds of $69,000 in FY 1998-99 and $67,500 in FY 1999-2000 are recommended for an additional staff position and associated operating costs to monitor the Commonwealth Venture Capital Fund.

The Branch Budget recommendation includes additional General Fund dollars of $119,000 in FY 1998-99 and $113,000 in FY 1999-2000 for three additional staff positions and associated operating costs in the Bluegrass State Skills Corporation to support the Skills Training Investment Program. Language provision in Part IX relating to this program specifies that if legislation is enacted by the General Assembly to utilize training investment credits for workforce training, BSSC shall submit quarterly progress reports of this program to the Legislative Research Commission for referral to appropriate committees. Should this legislation not be passed by the 1998 General Assembly, the Branch recommends these additional dollars remain with the Bluegrass State Skills program and be authorized as increased support for the existing grant program.

The Branch Budget provides for an additional $635,000 in Restricted Funds each year of the biennium for Bluegrass State Skills training grants. This money will originate from the repayments of economic development bond projects and loans and is substituted for General Fund dollars on a recurring basis. The total recommended appropriation for BSSC is $4,033,000 in FY 1998-99 and $5,400,900 in FY 1999-2000. Language provision in Part I of the State/Executive Budget Bill specifies that BSSC submit a quarterly financial report to the Governor's Office for Policy and Management, the Legislative Research Commission, and the Interim Joint Committee on Appropriations and Revenue. The General Fund appropriation for FY 1997-98 and succeeding fiscal years for the Corporation shall be continued and not lapse to the General Fund. Notwithstanding KRS 154.12-207, the Secretary is directed to take such action as may be necessary to execute contractual agreements for designated skills training and education projects for which funds have been specifically appropriated. No commitment for employee training shall be made beyond the ability of the Cabinet to fund the project within the appropriation for the current biennium.

Language provision in Part I also specifies that balances in the Special Revenue Funds account shall lapse to the General Fund Surplus Account at the end of each fiscal year.

The Branch Budget recommendation includes additional Restricted Funds of $207,000 in FY 1998-99 and $54,000 in FY 1999-2000 to fund the Economic Development Cabinet's layer of the Statewide Geographical Information System.

The Branch Budget recommendation includes additional General Fund dollars of $20,000 in FY 1998-99 and $21,000 in FY 1999-2000 to support and maintain projects of the Louisville Waterfront Development Corporation increasing General Fund support for the Corporation to $370,000 in FY 1998-99 and $371,000 in FY 1999-2000.

Continued

Included in the Branch Budget recommendation, within the Local Government Special Funds budget, are General Fund dollars of $27,284,100 in FY 1988-99 and $32,192,000 in FY 1999-2000 for the Local Government Economic Development Fund (LGEDF) for distribution to Kentucky coal producing counties in the form of economic development grants. Notwithstanding KRS 42.4586, the quarterly calculation of the allocation of moneys to coal producing counties through the LGEDF shall be made after a quarterly installment of the annual appropriation of $916,300 has been credited to the Secondary Wood Products Development Fund in each year of the biennium in support of the Kentucky Woods Products Competitiveness Corporation. BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends funding for existing SEEK programs in FB 1998-2000 with the following exceptions: The Branch Budget provides a three percent (3%) increase in the Base SEEK guarantee per pupil funding level for the current fiscal year ($1,484,106,300) and recommends General Fund support totaling $1,524,123,500 in FY 1998-99 and $1,573,075,600 (including additional funding support totaling $3,228,400) in FY 1999-2000. The Branch Budget provides a SEEK per pupil guarantee (including $100 per pupil for capital outlay) of $2,839 in FY 1998-99 and $2,924 in FY 1999-2000 based on a projected average daily attendance (ADA) totaling approximately 575,253 students each fiscal year in FB 1998-2000. The current per SEEK per pupil guarantee (including $100 per pupil for capital outlay) totals $2,756, and is based on a projected ADA student population totaling 573,891.

Pursuant to Part I, Operating Budget, and Part IX language provision relating to the Allocation of Support Education Excellence in Kentucky (SEEK) Funds, the Branch Budget directs funds appropriated for the SEEK Program shall be allotted to school districts in accordance with KRS 157.310 to 157.440, except that the total funds allotted shall not exceed those provided in the State/Executive Budget Bill.

Continued

The Branch Budget recommends continuation of the .15 factor to be applied to the SEEK base per pupil guarantee to determine the "at-risk" funds to be included in the SEEK calculation.

The Branch Budget also continues the modified "hold-harmless" guarantee and provides that every school district will receive at least the same amount of SEEK state funding per pupil in each fiscal year of the biennium as was received in FY 1991-92.

Included in the total additional funds is $3,228,400 in FY 1998-99 to provide for the total cost of the three percent (3%) increase in the Base SEEK component. The additional General Fund support also includes $9,983,000 in FY 1998-99 to fully fund the Tier I component of SEEK, utilizing current year assessments. The recommended total Tier I component funding increases from $107,042,500 budgeted in FY 1997-98 to $120,236,800 in FY 1998-99 and $118,834,100 in FY 1999-2000. Included in the additional funding support is $8,689,100 in FY 1998-99 and $26,779,400 in FY 1998-2000 to provide full funding of the increased Pupil Transportation costs, notwithstanding KRS 157.360(2)(c). Total funds for Pupil Transportation component increases from $155,000,000 budgeted in FY 1997-98 to $174,743,900 in FY 1998-99 and $189,859,500 in FY 1999-2000.

The Branch Budget recommends additional funding support for the Facilities Support Program (FSPK) in the amount of $5,520,800 in FY 1998-99 to fully fund this component based on the utilization of current year assessments. The total recommended funding increases from $36,533,500 budgeted in FY 1997-98 to $43,150,300 in FY 1998-99 and $41,137,800 in FY 1999-2000.

The Branch Budget recommends additional General Fund support for the State-Operated Vocational Schools totaling $263,100 in FY 1998-99 and $333,300 in FY 1999-2000 for increased personnel and operating costs. The Branch Budget recommends that funding for state-run vocational schools reimbursement for course offering to students in local school districts increase from the $18,796,000 budgeted in FY 1997-98 to $19,623,000 in FY 1998-99 and $20,545,000 in FY 1999-2000. The total recommended funding for vocational transportation increases from $2,180,000 budgeted in FY 1997-98 to $2,278,000 in FY 1998-99 and $2,346,000 in FY 1999-2000.

The Branch Budget recommends continuation of the .3 deduct factor that is applied against the base per pupil guarantee in those instances where a pupil spends a portion of the school day at a state-operated vocational school. This deduct is applied to the portion of the day the student spends at the vocational school.

Additional General Fund support totaling $1,352,000 in FY 1999-2000 is recommended to provide for the increased costs for the employer contributions to the Kentucky Teachers' Retirement System, based on an average percentage increase in the cost of this provision for fiscal years 1995, 1996, and 1997 totaling approximately 3.6 % per year. The total recommended funding increases from $225,727,000,budgeted in FY 1997-98 to $230,600,000 in FY 1998-99 and $238,870,000 in FY 1999-2000.

Pursuant to Part IX language provision relating to the Allocation of Support Education Excellence in Kentucky (SEEK) Funds, the Branch Budget provides that funds allocated for the SEEK base and its adjustment factors, which are not needed for the base or a particular adjustment factor, may be allocated to other adjustment factors if funds for that adjustment factor are not sufficient. These allocation adjustments shall adhere to the priority order and reporting requirements identified in Part IX. Funds allocated for SEEK shall be allotted to local school districts in accordance with KRS 157.310 to 157.440. Any increases or reductions to the SEEK allocations shall adhere to the conditions identified in Part IX.

Branch Budget includes Part IX language provision relating to Minimum Statewide Salary Schedules which directs local school districts shall adhere to the minimum statewide salary schedules as identified in Part IX.

HOUSE REPORT

The House concurs with the Branch Budget recommendation with the following changes: The House modifies Part IX language provision relating to Allocation of Support Education Excellence in Kentucky Funds to read as follows: The General Fund appropriations to the base Support Education Excellence in Kentucky (SEEK) program are intended to provide a base guarantee of $2,839 per student in average daily attendance in fiscal year 1998-99 and $2,924 per student in average daily attendance in fiscal year 1999-2000 as well as to meet the other requirements of KRS 157.360, notwithstanding KRS 157.360(2)(c). Funds allocated for the SEEK base and its adjustment factors and not needed for the base or a particular adjustment factor may be allocated to other adjustment factors if funds are insufficient. The following priority order shall be followed in any allocation: exceptional children, at-risk students, home and hospital instruction, and pupil transportation. Excess funds that exist after the SEEK base and all SEEK adjustment factors have been fully funded shall be reallocated on a pro rata average daily attendance (ADA) basis with forty percent (40%) of the excess funds for preschool education and sixty percent (60%) of the excess funds to those districts that provide a full day program for entry level students. If either the aggregate base SEEK program appropriations or the Tier I component appropriations in either year of the 1998-2000 fiscal biennium fall short of the amounts intended under KRS 157.310 to 157.430, KRS 157.440, or any other provision of this Act, any surplus funds from the base SEEK program or from the Tier I component may be transferred to the respective program or component experiencing the shortfall. Any transfer shall require approval of the Governor upon the written recommendation of the Secretary of the Finance and Administration Cabinet and the written request of the Commissioner of Education.

Funds appropriated to the Support Education Excellence in Kentucky program shall be allotted to school districts in accordance with KRS 157.310 to 157.440, except that the total of the funds allotted shall not exceed the appropriations for this purpose except as provided in this Act. The total appropriation for the Support Education Excellence in Kentucky (SEEK) program shall be measured by, or construed as, estimates of the state expenditures required by KRS 157.310 et seq. If the required expenditures exceed these estimates, the Secretary of the Finance and Administration Cabinet, upon the written request of the Commissioner of Education and with approval of the Governor, may increase the appropriation by such amount as may be available and necessary to meet, to the extent possible, the required expenditures under the cited sections of the Kentucky Revised Statutes, but any increase of the total appropriation to the Support Education Excellence in Kentucky program is subject to Part III, General Provisions, of this Act, and the provisions of KRS Chapter 48. If funds appropriated to the Support Education Excellence in Kentucky program are insufficient to provide the amount of money required under KRS 157.310 to 157.440, allotments to local school districts may be reduced in accordance with KRS 157.430.

The House adds Part IX language provision relating to Local School District Calendar to read as follows: Notwithstanding any other statute to the contrary, in any school district that adopted a calendar for the 1997-98 school year in which the equivalent of one thousand and fifty (1050) hours of instruction was completed in less than one hundred seventy-five (175) instructional days, the certified staff shall not be required to work more than four (4) in-service days, one (1) day for opening school and one (1) day for closing school, and shall be paid for four (4) holidays in addition to the instructional year, in order for the district and employees to receive full credit. If the school district requires that the certified staff work beyond this required time, then the school district shall pay extended employment to the employees for those days from its existing funds.

This Record reflects adoption of House Floor Amendment #3 that adds Part IX language provision relating to Local School District Calendar and House Floor Amendment #9 that revises Part IX language provision relating to Allocation of Support Education Excellence in Kentucky Funds.

The Senate adds Part IX language provision relating to Secondary Vocational Education and Technology Centers Operations: Notwithstanding KRS 151B.025, 151B.035, 151B.110, or any other statute to the contrary, a local board of education may petition the State Board for Adult and Technical Education to assume the management and control of a state-operated secondary vocational education and technology center. The State Board shall transfer all equipment, supplies, and any General Fund moneys appropriated to the Department of Technical Education relating to the operations of the center to the local board of education. In addition, all funds generated pursuant to students being enrolled in the center in accordance with the Support Education Excellence in Kentucky (SEEK) Program, as defined in KRS 157.360, 157.370, or any other statute to the contrary, shall be transferred to the local board of education for distribution to the secondary school operating the center. All funds, equipment, and supplies transferred to a local board of education pursuant to assuming the management and control of a state-operated secondary vocational education and technology center shall be provided to the secondary school operating the center and may only be utilized for the operations of the center.

All certified employees affected by a transfer to the local board of education shall be granted at least one (1) year contracts by the local board of education and shall be employed on the local district salary schedule, except that no employee shall receive a salary less than that being paid to the employee by the Department for Technical Education at the time of transfer. Any employee whose salary upon transfer exceeds that which would be paid an employee in the same position by the local district shall be ineligible for any increase in salary until the time the employee's placement on the salary schedule matches the experience and educational level required for district employees at that position on the schedule. Employees who are eligible for continuing status in the state employment system shall be granted tenure upon transfer and shall not be required to serve a probationary period. Classified employees shall be guaranteed employment equal to their present status for at least one (1) complete school term. Transferred employees shall be subject to all rules and policies of the local board of education, including but not limited to disciplinary and personnel actions that are the same as those that may be exercised by a district for any other employee in the district during a contract period. The employees' state positions shall be abolished as of the effective date of transfer to the local board of education. The transferred employees who have accrued annual leave and compensatory time shall be paid a lump sum for the accrued time at the effective date of the transfer. The employee shall be granted credit for accrued sick leave up to the maximum allowed for transfers for teachers between school districts as provided by KRS 161.155(3). Sick leave credit shall be awarded to classified employees based on the local board policy. An employee to be transferred to a local board of education under provisions of this section who chooses not to accept a one (1) year limited contract with the board shall be separated from the state system and the employee's position shall be abolished. Notwithstanding any other statute to the contrary, the employee may apply for any state position for which the employee is qualified and shall be granted priority over other applicants for a position because the employee's position was abolished due to a transfer of the vocational education and technology center. The employee who refuses a contract with the local board shall be provided a lump sum payment for accrued annual leave and compensatory time and the employee's sick leave balance shall be placed in escrow by the appropriate state personnel system. The sick leave balance shall be restored to the employee if the employee returns to a state government position.

CONFERENCE REPORT

The Conference concurs with the Senate with the exception of modifying Part IX language provision relating to Allocation of Support Education Excellence in Kentucky Funds to read as follows: The General Fund appropriations to the base Support Education Excellence in Kentucky (SEEK) program are intended to provide a base guarantee of $2,839 per student in average daily attendance in fiscal year 1998-99 and $2,924 per student in average daily attendance in fiscal year 1999-2000 as well as to meet the other requirements of KRS 157.360, notwithstanding KRS 157.360(2)(c). Excess funds that exist after the SEEK base has been fully funded shall be reallocated as follows: forty percent (40%) to adjustment factors where funds are insufficient to fully fund the adjustment factor, and sixty percent (60%) on a pro rata average daily attendance (ADA) basis to those districts that provide a full day program for entry level students. Any transfer shall require approval of the Governor upon the written recommendation of the Secretary of the Finance and Administration Cabinet and the written request of the Commissioner of Education.

In the event that amounts appropriated for the state's assessment program are insufficient to meet the costs of the testing program, funds may be transferred from the pupil transportation component of the Support Education Excellence in Kentucky (SEEK) Program; however, the total amount expended for the testing program shall not exceed $8,100,000 in each fiscal year.

Funds appropriated to the Support Education Excellence in Kentucky program shall be allotted to school districts in accordance with KRS 157.310 to 157.440, except that the total of the funds allotted shall not exceed the appropriations for this purpose except as provided in this Act. The total appropriation for the Support Education Excellence in Kentucky (SEEK) program shall be measured by, or construed as, estimates of the state expenditures required by KRS 157.310 et seq. If the required expenditures exceed these estimates, the Secretary of the Finance and Administration Cabinet, upon the written request of the Commissioner of Education and with approval of the Governor, may increase the appropriation by such amount as may be available and necessary to meet, to the extent possible, the required expenditures under the cited sections of the Kentucky Revised Statutes, but any increase of the total appropriation to the Support Education Excellence in Kentucky program is subject to Part III, General Provisions, of this Act, and the provisions of KRS Chapter 48. If funds appropriated to the Support Education Excellence in Kentucky program are insufficient to provide the amount of money required under KRS 157.310 to 157.440, allotments to local school districts may be reduced in accordance with KRS 157.430.

The Conference modifies the Part IX language provision relating to Local School District Calendar to read as follows: Notwithstanding any other statute to the contrary, in any school district that adopted a calendar for the 1997-98 school year in which the equivalent of one thousand and fifty (1050) hours of instruction was completed in less than one hundred seventy-five (175) instructional days, the certified staff shall not be required to work more than four (4) in-service days, one (1) day for opening school and one (1) day for closing school, and shall be paid for four (4) holidays in addition to the instructional year, in order for the district and employees to receive full credit. If a school district required teachers to work additional days to meet the one hundred eighty-five (185) day requirement under the provisions of KRS 158.070 during the 1997-98 school year, up to four (4) days may be carried forward to meet the professional development and planning requirements under the provisions of KRS 158.070 for each of the 1998-99 and 1999-2000 school years.

The Conference modifies the Part IX language provision relating to Secondary Vocational Education and Technology Centers Operations to read as follows: Notwithstanding KRS 151.025, 151B.035, 151B.110, or any other statute to the contrary, a local board of education may petition the State Board for Adult and Technical Education. The application by a local board to assume authority for the management and control of a state-operated secondary vocational education and technology center shall address, at a minimum, the following areas of concern: the local board's plan for continuing those programs and services to students from other school districts who are using the center at the time of the transfer, a plan of collaboration with the districts being served to meet local vocational curriculum needs, including the intention to involve these districts in future needs assessments, program, and curriculum changes.

The State Board may, at its option, enter into an agreement to transfer all equipment, supplies, and any General Fund moneys appropriated to the Department of Technical Education relating to the operations of the center to the local board of education, provided that the local board shall guarantee all employee rights and benefits accumulated under the State Board of Adult and Technical Education. In addition, all funds generated pursuant to students being enrolled in the center in accordance with the Support Education Excellence in Kentucky (SEEK) Program, as provided by KRS 157.360, 157.370, or any other statute, shall be transferred to the local board of education for distribution to the secondary school operating center. All funds, equipment, and supplies transferred to the local board of education pursuant to assuming the management and control of a state-operated secondary vocational education and technology center shall be provided to the secondary school operating the center and may only be utilized for the operation of the center.

The Conference adds Part IX language provision relating to Consumer Price Index to read as follows: In accordance with the enactment of legislation directing the identification of the percent increase in the average annual Consumer Price Index for all urban consumers between the two (2) most recent calendar years, it is determined this percentage increase for calendar years 1996 and 1997 is two and three tenths percent (2.3%).

BUDGET MODIFICATION REPORT

The Branch Budget recommends funding for existing services and programs and a 5% salary increment in FB 1998-2000 with an 18.6% decrease between FY 1997-98 and FY 1998-99 for Current Services, mostly due to a one-time payment expected to be made to Unisys Corporation for obtaining federal certification of the Medicaid Management Information System (MMIS). Operating expenses are projected to increase approximately 3% in each year of the biennium over the FY 1997-98 budgeted amount. Federal blended match rates for Program Administration (except for Eligibility Determination) are projected to be 59.82% in FY 1998-99 and 60.31% in FY 1999-2000. Eligibility Determination assumes a federal match rate of 50% in each year of the biennium.

A budgeted filled positions complement as of August 1, 1997 of 183 Permanent Full Time and Permanent Part Time and 13 Other positions are funded. Additional General Fund and Federal Funds are provided to maintain Current Services by funding 5 Permanent Full Time positions which were not funded as of August 1, 1997.

Additional General Fund in the amount of $11,407,000 in FY 1998-99 and $11,407,000 in FY 1999-2000 and Federal Funds in the amount of $528,000 in FY 1999-2000 are provided to continue Current Services (Eligibility Determination) and to finance an erroneous Federal Fund match assumption for Medicaid Administration in the FB 1996-98 Budget based upon Congressional action.

Part I language provision for Medicaid Administration states that any unexpended appropriations for Medicaid Administration may be used for Medicaid Benefits upon approval of the Secretary of Finance and Administration and State Budget Director. Available funds shall not be used to establish a new program, expand an existing program or increase rate or payment levels.

Medicaid Administration in FY 1998-99 includes $7.2 million Federal Funds revenue redistribution at an enhanced match rate of 75% to complete Medicaid's part of the federal mandate to de-link the Kentucky Automated Management and Eligibility System (KAMES) computer program from

Continued

the Medical Assistance Program. It is noted that the Branch Budget recommendation for the Department for Social Insurance (DSI) authorizes any DSI Benefits unexpended appropriations in excess of $5 million in FY 1998-99 and any unexpended DSI Benefits appropriation in FY 1999-2000 to be utilized to fund the state match for DSI's cost share of the federal mandate to de-link KAMES from the Medical Assistance Program. The reduction of Federal Funds redistribution from $21,550,500 in FY 1998-99 to $13,956,000 in FY 1999-2000 is mainly due to not having KAMES de-link costs of $7.2 million in FY 1999-2000.

Empower Kentucky/SAS General Fund savings are budgeted totaling $2,800 in FY 1998-99 and $5,400 in FY 1999-2000. The Empower Kentucky Transportation initiative (coordinates services between five agencies including the Cabinet for Health Services, Cabinet for Families and Children, Transportation Cabinet, Workforce Development Cabinet and Department for the Blind) is projected to result in a net savings of $492,500 in FY 1999-2000. These savings amounts are factored into recommended budgets for Medicaid Administration and Social Insurance Administration.

The Cabinet for Health Services did not request, and the Governor did not recommend, any carry-forward funds for Medicaid Administration.

HOUSE REPORT

The House concurs with the Branch Budget recommendation with the exception that Restricted Fund receipts are projections are increased $1,260,700 in FY 1998-99 and $1,385,600 in FY 1999-2000, to replace General Fund support.

The House adds Part IX language provisions relating to Medicaid Waivers as follows:

a) By January 1, 1999, the Department for Medicaid Services shall request federal waivers, to be effective July 1, 1999, to utilize Medicaid funding for the following services: a) substance abuse services for pregnant women; b) homecare; c) Alzheimer's respite care; d) personal care attendants; e) a long term care case management demonstration project; and, f) personal care homes/state supplementation payments to the extent that current federal law would allow recipients to be limited to state supplementation clients; and,

b) Funds for implementation of Medicaid expansion requests within the Cabinet for Health Services and Cabinet for Families and Children shall be available upon approval of the waivers from the Health Care Financing Administration (HCFA). The Cabinets shall proceed aggressively on developing waiver applications for submission to HCFA for their review and approval.

SENATE REPORT

The Senate concurs with the House and modifies the language provision relating to Medicaid Waivers by deleting (e) relating to requesting a Medicaid waiver for a long term care case management demonstration project.

CONFERENCE REPORT

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs with a Medicaid Benefits reduced rate of growth of 6.7% between FY 1997-98 and FY 1998-99 and -1.5% between FY 1998-99 and FY 1999-2000. The nominal percentage decrease between FY 1998-99 and FY 1999-2000 assumes statewide transition to the Health Care Partnership Managed Care waiver and projects the payment of Incurred But Not Previously Reported (IBNPRs) claims in the amount of $80,999,000 in FY 1997-98 and $165,401,000 in FY 1998-99. The IBNPR claim payment cycle distorts the standard Medicaid Benefits growth rate and causes a "bubble effect" in Medicaid estimated expenditures.

The following Branch Budget assumptions are reflected in Current Services/Maintenance projections:

Federal match rates for Medicaid Benefits are projected to be: 70.30% in FY 1997-98; 70.43% in FY 1998-99; and 70.53% in FY 1999-2000.

Average Monthly Current Eligibles: Actual FY 1996-97 - 532,026; Budgeted FY 1997-98 - 524,000 (decrease of 8,026); Projected FY 1998-99 - 520,000 (decrease of 4,000); and Projected FY 1999-2000 - 516,000 (decrease of 4,000) which are identical to the Agency Budget Request. The projected decrease in the total number of Medicaid eligibles, at least in part, is believed to be due to Welfare Reform. Budget projections are based on no change in the current mix of Medicaid eligibles. DMS states that any shift to a more costly category of Medicaid eligibles (i.e. disabled) would result in a Medicaid program deficit. The Medicaid cost per eligible is not projected to decrease over the next biennium due to improvements in medical technology and increased life expectancies of some of the more costly categories of Medicaid eligibles.

Continued

Carryforward dollars are projected to be: $6,314,500 Restricted Funds and $1,630,000 Federal Funds in FY 1997-98; $41,565,100 Restricted Funds and $79,474,300 Federal Funds in FY 1998-99; $58,971,000 Restricted Funds in FY 1999-2000; and $35,926,500 Restricted Funds in FY 2000-2001. These numbers differ from the Agency Budget Request for Medicaid Benefits which included carry-forward amounts of $20,634,000 Restricted Funds and $29,930,500 Federal Funds in FY 1998-99. The Branch Budget assumes a carry-forward balance of $35,926,500 in Restricted Funds at the close of FY 1999-2000.

Provider tax collections continue to be reduced due to the repeal of the physicians' provider tax (scheduled for full repeal July 1, 1999) as follows: FY 1998-99 - $13.9 million/$38.9 million cumulative; and FY 1999-2000 - $15.6 million/$54.7 million cumulative. Cumulative figures are total physicians' provider tax reductions since repeal passage by the 1996 General Assembly.

The Branch Budget assumes statewide implementation of the Regional Health Care Partnerships Managed Care Initiative and proportional cost savings on the following schedule: Region 3 (Louisville and surrounding areas) and Region 5 (Lexington and surrounding areas) in FY 1997-98 (35% of total savings); Region 6 (Northern Kentucky) and Region 7 (Morehead and surrounding areas) on July 1, 1998 (15% of total savings); Region 1 (Maysville and surrounding areas), Region 2 (Hopkinsville and surrounding areas) and Region 4 (Glasgow and surrounding areas) in November 1998 (25% of total savings); and Region 8 (Prestonsburg and surrounding areas) in January 1999 (25% of total savings).

Medicaid Partnership savings are projected to be $16,800,000 in FY 1997-98; $70,500,000 in FY 1998-99; and $117,200,000 in FY 1999-2000 based on statewide implementation by FY 1999-2000. Two of the eight Medicaid Partnership contracts have been signed by February 1998 in Region 3 (Louisville and surrounding areas) for $177,000,000 and Region 5 (Lexington and surrounding areas) for $106,000,000. Contracts were signed in September, 1997, and services started November 1, 1997. In all Regions services are being phased-in over a three month timeframe for affected eligibility groups.

A consensus group forecasted Medicaid Benefits budgets contained in the Branch Recommendation. Consensus budget reduction estimates are: $53,675,300 in FY 1997-98; $51,432,000 in FY 1998-99; and $78,536,000 in FY 1999-2000.

Cost reductions have been incorporated for KenPAC, Drug Rebates and Cost Settlements due to the transition to managed care. Total adjustments in these areas are: $42,400,000 in FY 1997-98; $51,500,000 in FY 1998-99; and $62,300,000 in FY 1999-2000. KenPAC program reductions are included in managed care savings. Although state agency drug rebates will be lost due to the transition to managed care, the cost of drugs under managed care is projected to decrease proportionately so that drug rebate losses are budget neutral. The budget assumes that Partnership entities will negotiate regional drug rebates.

Disproportionate Share Hospital (DSH) payments are capped according to the 1997 Federal Balanced Budget Act; annual payment ceiling on Kentucky's DSH program is $195 million in FY 1997-98, $191 million in FY 1998-99 and $185 million in FY 1999-2000. Psychiatric DSH payments have a separate cap according to the 1997 Federal Balanced Budget Act; the state cap is $33 million in FY 1998-99 and $32 million in FY 1999-2000. Additional General Fund is recommended and budgeted in the Department for Mental Health/Mental Retardation (MH/MR), to partially replace lost psychiatric DSH Federal Funds, in the amount of $10,552,000 in FY 1998-99 and $10,803,500 in FY 1999-2000. Due to Medicaid cap restrictions for Kentucky's mental hospitals, the

Medicaid General Fund base is reduced $5.8 million in FY 1998-99 and $6.5 million in FY 1999-2000 and rebudgeted in residential MH/MR programs. State Teaching Hospital Enhanced DSH payments for the University of Kentucky and University of Louisville Hospitals are not budgeted in FY 1998-99 or FY 1999-2000 as the payments are contingent upon agreement by all parties involved. The FY 1997-98 Teaching Hospitals' DSH payments are budgeted at $69 million. DMS budgets total state DSH payments at $126 million in each year of FY 1998-99 and FY 1999-2000.

Language provisions in Part I, State/Executive Budget Bill, include that: a) Medicaid Benefits funds are to be used to pay benefits in accordance with statutes governing the Department for Medicaid Services; b) any unexpended General Fund in FY 1997-98 and FY 1998-99 shall not lapse, but shall carry-forward into the next fiscal year; the Secretary of the Cabinet for Health Services shall be allowed to transfer from Medicaid Benefits to Medicaid Administration up to 1/2 of one percent of the combined General Fund and Restricted Funds appropriations for Medicaid Administration or $4,000,000, whichever is less, to be used for technical assistance costs and costs of Year 2000 compliance for the Medicaid Management Information System.

Part IX language provisions are as follows: a) Hospital Indigent Patient Reporting: No hospital shall report as, or bill a patient for, indigent care any inpatient or outpatient services which are eligible for DSH reimbursement; b) Hospital Indigent Patient Billing: Providers who post amounts paid to the state for provider tax shall also post the amount of Medicaid payments received during the same time period; c) Indigent Care Posting: Any hospital that receives DSH funds shall post a sign that they participate in the DSH program and are required to provide indigent care; d) Settlement of Obligations Incurred Prior to Prepaid Capitation: The Department is authorized to fulfill financial obligations incurred prior to implementation of prepaid capitation; e) DSH Payments: DSH payments shall not exceed maximum amounts established by the Federal Balanced Budget Act of 1997; f) Quality and Charity Care Trust Funds: No hospital may be reimbursed from both the Quality and Charity Trust Fund and Hospital Indigent Care Assurance Program (DSH) for the same service to the same patient. A penalty is to be assessed if a hospital willfully violates this provision. Also, in any fiscal year in which all the parties to the Quality and Charity Trust Fund so agree, the General Fund appropriation of the Quality and Charity Trust Fund, together with any other funds paid to this account, may be transferred to the Department for Medicaid Services for Medicaid Benefits. If all parties do not agree to this fund transfer, the Quality and Charity Care Trust shall operate pursuant to its contractual provisions; and, g) Maximizing Federal Funds: The Cabinet for Health Services shall maximize Federal Funds.

The Empower Kentucky Transportation Initiative, which coordinates services among five Cabinet agencies including the Health Services, Families and Children, Transportation, Workforce Development and Department for the Blind, is projected to result in a net state funds savings to Medicaid Benefits of $776,000 in FY 1998-99 and $1,707,300 in FY 1999-2000. General Fund and Restricted Funds savings ($229,000 and $503,500) are factored into recommended Medicaid Benefits Budgets.

HOUSE REPORT

The House concurs with the Branch Budget recommendation and provides additional General Fund and Federal Funds as follows: Second Hearing Aids - $25,000 General Fund and $59,000 Federal Funds in FY 1998-99 and $26,000 General Fund and $61,000 Federal Funds in FY 1999-2000; Children's Crisis Stabilization Units, $700,000 Federal Funds in FY 1998-99 and $800,000 Federal Funds in FY 1999-2000; Substance Abuse Services for Pregnant Women, $1,666,700 Federal Funds each year; Aging Services, $6,877,700 Federal Funds in FY 1998-99 and $13,755,300 Federal Funds in FY 1999-2000; and Personal Care Home/State Supplementation Payments, $1,960,000 Federal Funds in each year.

Restricted Funds projections are increased $1,600,000 in FY 1998-99 and $1,725,100 in FY 1999-2000, and Restricted Funds carry-forward is reduced $5 million in each year.

The report shall compare the actual expenditure experience with those underlying the enacted or revised enacted budget, explain why significant variances may occur and distinguish between expenditures for continuing and new programs. Measurement of any savings initiatives shall compare budgeted savings with actual savings.

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs and a 5% salary increment in FB 1998-2000 with a 2.1% decrease between FY 1997-98 and FY 1998-99 for Current Services (mostly from not funding 113 vacancies in Residential Services). Funding for state mental hospitals includes a significant fund source change. The Federal Balanced Budget Act of 1997 capped Kentucky's psychiatric Disproportionate Share Hospital (DSH) payments at $33 million in FY 1998-99 and $32 million in FY 1999-2000. Actual Medicaid DSH payments to state mental hospitals in FY 1996-97 were $50.8 million and are budgeted to be $49.1 million in FY 1997-98. Since Medicaid can no longer draw this level of psychiatric DSH Federal Funds, General Fund matching dollars in the amounts of $5.8 million in FY 1998-99 and $6.5 million in FY 1999-2000 are redirected from Medicaid to Mental Health and Mental Retardation. Additional General Fund dollars equaling $10,552,000 in FY 1998-99 and $10,803,500 in FY 1999-2000 are provided to replace lost federal psychiatric DSH dollars. Total funding for state mental hospitals in FY 1998-99 is $43,552,000 (11.4% reduction from the FY 1997-98 budgeted amount) and $42,803,500 in FY 1999-2000. Current Services funding by expenditure category in FY 1998-99 is as follows: Personnel - -2.9%; Operating - +14.7%; Grants, Loans and Benefits - +4.1%; Capital Outlay - 60%; Total - +1.8%.

A budgeted filled positions complement as of August 1, 1997 of 2,415 Permanent Full Time and Permanent Part Time and 29 Other positions are funded. Additional General Fund and Restricted Funds are provided to maintain Current Services by funding 71 Permanent Full Time positions which were not filled as of August 1, 1997. Additional funding includes dollars to directly hire the Mental Health/Mental Retardation Commissioner who is currently providing services through a state contract.

Additional General Fund dollars are provided as follows: a) $2,609,400 in FY 1998-99 and $6,023,600 in FY 1999-2000 to fund increased operating expenses and maintain FY 1997-98 current service levels in Residential facilities; b) $220,000 in each year of the biennium to fund a Psychiatric Security Review Board; and, c) $400,000 in each year of the biennium to fund 52 Supported Living and Housing slots.

Part II, Capital Budget, includes: (1) property lease for 4th floor of the building located on Fair Oaks Lane in Franklin County ($253,800); (2) Investment Income supported capital projects as follow: a) $550,000 in FY 1998-99 to replace the emergency generator at Glasgow Skilled Nursing Facility; b) $550,000 in FY 1998-99 to replace the emergency generator at Central State Hospital; and, c) $450,000 in FY 1999-2000 for a maintenance pool for miscellaneous projects (i.e. minor renovations and repairs) at statewide Mental Health/Mental Retardation facilities.

Empower Kentucky/SAS General Fund savings are budgeted totaling $312,100 in FY 1998-99 and $521,400 in FY 1999-2000.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs in FB 1998-2000 with the following additions: Restricted Funds are provided from the Kentucky Law Enforcement Foundation Program Fund (KLEFPF) in the amounts of $1,958,500 in FY 1998-99 and $4,063,000 in FY 1999-2000 to support the pay incentive for all eligible law enforcement officers. The Branch budget recommends that each participant receive $2,750 in FY 1998-99 and $3,000 in FY 1999-2000 and in each year thereafter. Additionally, the Branch Budget recommends that $3,792,000 in FY 1998-99 and $3,884,000 in FY 1999-2000 be provided from KLEFPF Restricted Funds to support the inclusion of sheriffs, deputy sheriffs, and university police in the category of those law enforcement officers eligible to participate in KLEFPF. Restricted Funds are also provided in the amount of $403,000 in FY 1998-99 and $364,000 in FY 1999-2000 to establish a program that would license all law enforcement officers in the state. Restricted Funds are provided from KLEFPF to pay debt service on a new Law Enforcement Basic Training Complex ($20 million Agency Bonds) on the campus of Eastern Kentucky University. (Restricted Funds totaling $1,908,000 in FY 1999-2000)

Language provisions state: Notwithstanding KRS 15.430, KRS 42.190, or KRS 136.392, the fund balance reserve of KLEFPF shall not exceed $2 million at the end of FY 1997-98. Additionally, funds unexpended at the end of FY 1998-99 and FY 1999-2000 shall not lapse but shall be carried forward into the following fiscal year.

HOUSE REPORT

The House concurs with the Branch Budget recommendation with the following exceptions: Restricted Funds from the Kentucky Law Enforcement Foundation Program Fund (KLEFPF) to increase the incentive payments for existing law enforcement officers is reduced by $689,400 in FY 1998-99 and $1,532,100 in FY 1999-2000. Restricted Funds support from the Kentucky Law Enforcement Foundation Program Fund (KLEFPF) to include university police, sheriffs, and deputy sheriffs as eligible participants for KLEFPF incentive payments is increased by $439,400 in FY 1998-99 and $732,100 in FY 1999-2000. The net impact of these KLEFPF adjustments is a reduction of $250,000 in FY 1998-99 and $800,000 in FY 1999-2000 based on current cost estimate. Both of these additional funding items are subject to pending legislation (HB 455 and HB 52).

The Criminal Justice Council, that is created subject to pending legislation (HB 455) shall be supported in the Justice Administration appropriation unit with Restricted Funds totaling $240,000 in FY 1998-99 and $230,000 in FY 1999-2000 from the Kentucky Law Enforcement Foundation Program Fund.

In addition, $2.5 million in Restricted Funds is transferred from the KLEFPF fund balance in FY 1999-2000 to the General Fund as provided by Part V, Funds Transfer.

Any provisions to the contrary codified in KRS 15.430, KRS 42.190, or KRS 136.392 are suspended.

SENATE REPORT

The Senate concurs with the House with the following exception: Restricted Funds moneys in the amount of $35,000 in FY 1998-99 from the Kentucky Law Enforcement Foundation Program Fund (KLEFPF) are provided within the Criminal Justice budget to support the Owsley County Sheriff's Law Enforcement Safety Improvement Program. Senate Floor Amendment #10 provides General Fund support rather than Restricted Funds for the Owsley County Sheriff grant.

This Record reflects the adoption of Senate Floor Amendment #10, which inserts $35,000 in FY 1998-99 from the General Fund for the Owsley County Sheriff's Law Enforcement Safety Improvement Program and deletes Restricted Funds support of $35,000 from KLEFPF.

CONFERENCE REPORT

The Conference concurs with the Senate.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs in FB 1998-2000 with the following exceptions:

McCracken County Detention Center

Additional moneys are recommended in the Branch Budget in the amounts of $880,500 in FY 1998-99 and $1,773,000 in FY 1999-20000 to operate the McCracken County detention facility. Only $129,000 (in FY 1998-99) of the money is recommended to come from the General Fund. The balance would be Restricted Fund moneys that would be generated by the Center. This 47 bed facility, which was authorized by the 1996 General Assembly is expected to be open in January 1999. Included within this request are moneys to support 49 permanent full time positions.

Campbell County Detention Center

The Branch Budget recommends $715,000 in FY 1998-99 and $1,720,000 in FY 1999-00 to operate the Campbell County detention facility. Only $82,000 (in FY 1998-99) of the money is recommended to come from the General Fund. The balance would be Restricted Fund moneys that would be generated by the Center. This 52 bed facility, which was authorized by the 1996 General Assembly is expected to be open in February 1999. Included within this request are moneys to support 48 permanent full time positions.

Day Treatment Program Expansion

Additional moneys are provided from the General Fund in the amount of $324,000 in FY 1998-99 and $300,000 in FY 1999-00 to extend day treatment programs into the evening to provide recreation, tutoring, counseling, and other positive social opportunities for youth at risk. Each day treatment program would stay open until 8:00 p.m., and provide close supervision of youth who meet the criteria of being at risk. Referrals could be made by the courts, schools, Court Designated Worker or DJJ staff. Youth would be provided meals at the facility and transportation home. Included in the recommended moneys, is support for two additional full time youth workers for each program (12 positions). Also included in the budget is the cost of meals and transportation. Each program is expected to serve between 20 and 30 youth.

Juvenile Transportation Workers

Moneys are provided from the General Fund in the amount of $123,000 in FY 1998-99 to support the transportation of youth that are placed each month in group homes, youth development centers, or private child care facilities.

Treatment Center-Emotionally Disturbed Girls

The Branch Budget includes an additional funding in the amount of $650,000 from the General Fund in each year of the next biennium to contract for a 12 bed treatment facility for females with serious emotional problems. Morehead Treatment Center, the state's only female development center, is comprised of open wing dormitories and does not allow for separation of special needs offenders. The Department is required under the Consent Decree to provide the treatment needs of the youth it serves. It operates a facility for males with serious emotional problems (Cardinal) but does not provide for the same facility for females. The Department plans to contract with a private child care facility for the services. The private child care vendor will be responsible for both providing the facility and operating the program. The average length of stay will be six months.

Continued

In each year of the next biennium, $250,000 is recommended to secure individual and group counseling, mental health counseling, educational services, or other services deemed appropriate. It is planned that all services would be provided through contract.

Youth workers are the front line positions in the Department's programs and have the most day-to-day contact with juveniles. The Branch includes $500,000 in FY 1999-2000 from the General Fund to upgrade the salaries of the Youth Worker series. The beginning salary of a youth worker is $16,260. These funds will allow the entry level salary to be increased to $17,260. Existing staff in the series, as well as counselors and program supervisors, will receive a lump sum of $1,000. This salary change will impact approximately 425 positions.

The sum of $9,097,500 is provided in FY 1998-99 and the sum of $11,017,000 is provided in FY 1999-2000 in additional General Fund support to expand Halfway House beds by 100 additional inmate and 60 parolee beds in Fiscal Year 1998-99; and by 95 additional inmate and 24 parolee beds in Fiscal Year 1999-2000; and fund 1,250 medium security jail beds (HB 455) at a per diem rate of $30.00.

Additional Federal Funds in the amount of $541,000 in FY 1998-99 and $51,000 in FY 1999-2000 and additional General Fund support in the amount of $604,500 in FY 1999-2000 is provided to hire 21 staff (14 Probation and Parole Officers; 4 lab technicians, and 3 Secretary Principal positions in FB 1998-2000) and pay for 850 Community Confinement Treatment slots in the Division of Local Facilities in FB 1998-2000. The source of the new Federal dollars comes from a Federal grant noted in the U.S. Federal Budget, Justice Conference Report for Community Supervision Programs. Kentucky was awarded the sum of $2.5 Million in each fiscal year.

Federal Funds from a Community Supervision Program grant in the amount of $362,500 in FY 1998-99 and $1,203,000 in FY 1999-2000 is provided for probation and parole caseload expansion to hire 34 additional staff (7 Secretary Principal positions, 21 additional Probation and Parole Officers, and 6 Assistant Supervisor positions in FB 1998-2000) to deal with projected felon caseload expansions in the Division of Probation and Parole.

The revised FY 1997-98 General Fund appropriation is $2,800,000 greater than enacted by the 1996 General Assembly. The Branch includes Part IX language provisions relating to FY 1997-98 Appropriation Revision to read as follows: Authorization is given for the receipt and expenditure of $2,800,000 in General Fund appropriations in fiscal year 1997-98 from the Adult Institutions appropriation unit to the Community Services and Local Facilities appropriation unit in order to offset a fiscal year 1997-98 impending budget deficit. Due to the delayed opening of previously authorized capital construction facilities, there exists a surplus of $2,800,000 in operating funds in Adult Institutions that will be used in Community Services and Local Facilities to offset the unbudgeted cost of housing additional inmates in county jails.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs with the following exceptions: The sum of $21,144,100 in FY 1998-99 and $27,111,300 in FY 1999-2000 is provided in General Fund support to restore current services funding levels in each year of the Biennium. The sum of $3,000,000 current services vacancy credit is included in each year of the Biennium. General Fund Empower Kentucky savings are budgeted in the amount of $2,281,500 in FY 1998-99 and $2,837,300 in FY 1999-2000. Additional Restricted Funds are provided in FY 1997-98 in the amount of $2,684,900 to support production of the final portion of the 1998 general issue of license plates in the Division of Correctional Industries.

Additional Federal Funds, a $5,000,000 grant award for the purpose of Community Supervision Programs, are provided in the Division of Mental Health totaling $855,000 in FY 1998-99 and $1,981,500 in FY 1999-2000 to hire 14 Offender Rehabilitation Specialists to assist Probation and Parole staff from Community Services and Local Facilities in the Community Confinement Program (HB 455).

The FY 1997-98 General Fund appropriation is $2,800,000 less than enacted by the 1996 General Assembly. The Branch Budget includes Part IX, Special Provision relating to FY 1997-98 appropriation revised to read as follows: Authorization is given for the receipt and expenditure of $2,800,000 in General Fund appropriations in FY 1997-98 from the Adult Institutions appropriation unit to the Community Services and Local Facilities appropriation unit in order to offset a FY 1997-98 impending budget deficit. Due to the delayed opening of previously authorized capital construction facilities, there exists a surplus of $2,800,000 in operating funds in Adult Institutions that will be used in Community Services and Local Facilities to offset the unbudgeted cost of housing additional inmates in county jails.

HOUSE REPORT

The House concurs with the Branch Budget recommendations with the following exceptions: Additional $2,663,000 General Fund support in FY 1999-2000 is provided for a $1,000 salary increase for Correctional Officers and $2,000,000 General Fund each year is provided for contracting 200 additional minimum security private prison beds at Otter Creek Correctional Complex starting July 1, 1998.

The House adds Part IX language provisions relating to Private prison Bed Expansion and Inmate Population, Beds, Status, and Financial Status Reports to read as follows: a) Private Prison Bed Expansion: The Department of Corrections shall give preference to Eastern Kentucky inmates when filling the additional beds, to allow for easier visitation by family members; b) Inmate Population/Bed Status and Financial Status Reports: The Justice Cabinet, Department of Corrections, is directed to provide a quarterly update report regarding inmate population projections, relating to state prisoners, to the Interim Joint Committee on Appropriations and Revenue. This report shall provide, at a minimum, any deviations in excess of one percent (1%) from the projections utilized in the preparation of the 1998-2000 Biennial Budget. In addition, the Department is directed to provide a monthly status of all bed space utilized to house state prisoners, including state penitentiaries, adult correctional facilities, local and/or regional jails, halfway houses, community confinement programs and diversion programs and shall provide a quarterly program and financial status report which identifies the expenditure of these funds to the Interim Joint Committee on Appropriations and Revenue. The report shall provide, at a minimum, the purpose for which the expenditure was made, the projected goal to be accomplished and outcomes, and their status, and the number of participants.

SENATE REPORT

The Senate concurs with the House with the following exception: Provides $2,761,400 in FY 1998-99 and increases General Fund support in FY 1999-2000 from $2,663,000 to $5,460,100 ($2,797,100 increase) to provide a $1,000 salary increase in FY 1998-99 and an additional $1,000 salary increase in FY 1999-2000, totaling $2,000 salary increase over the Biennium for Security Staff. The Senate deletes the Part IX language provision relating to custody level inmates in contracted facilities.

The Senate adds language provisions to Part IX, Special Provisions that read as follows: Reporting Requirements: The Department of Corrections shall require and Private Prison Bed Contractors shall provide to the Department of Corrections an annual report that contains, at a minimum, personnel data that includes a pay scale/job classification structure for all employees; information detailing salaries of personnel and related benefits by pay scale/job classification structure; and the minimum, average, and maximum salary, plus fringe benefits provided for all employed persons. The Information provided shall be consistent with the Department of Corrections pay scale and job classification structure for all Department of Corrections employees. Fringe benefits shall be identified separately from salary expense. The Conference adds the Part IX, Special Provisions language regarding private prison custody levels as follows: Notwithstanding KRS 197.505, the Department of Corrections shall not enter into a contract for the operation or management of any facility authorized for new construction in this Act which is intended or designed to house prisoners classified above the minimum or community-custody level.

BUDGET MODIFICATION REPORT
BRANCH BUDGET

The Branch Budget recommends reduced funding for existing services and programs in FB 1998-2000 by not funding some vacancies existing on August 1, 1997; by adjusting the retirement factor included in the request (9.24%) to the recommended July 1998 actuarial level (8.03%); and by reducing General Fund dollars attributed to the EMPOWER Kentucky administrative initiative. General Fund EMPOWER Kentucky/SAS savings are budgeted in the amount of $31,300 in fiscal year 1998-99 and $57,300 in fiscal year 1999-2000. The budgeted permanent full-time (PFT) complements are: Office of the Secretary - 14; Administrative Services - 39; Administrative Hearings - 12; Legal Services - 93; and Office of Information Services - 20. The budget unit must further reduce the PFT complement by one position in fiscal year 1999-2000 attributed to the EMPOWER Kentucky/SAS savings.

The total budgeted PFT complement for fiscal year 1999-2000 is 177. For comparison purposes, the PFT complement for fiscal year 1997-98 was 182; the PFT complement for fiscal year 1995-96 was 194.

Continued

Included in the maintenance budget for continuation of existing activities and operations funded presently from Restricted and Federal Funds is General Fund dollars of $482,200 in fiscal year 1998-99 and $558,700 in fiscal year 1999-2000, and Federal Funds of $86,500 in fiscal year 1998-99 and $89,500 in fiscal year 1999-2000. These funds support continuation of existing computer contract services and the fiscal year 1997-98 personnel complement with the exception of 4 positions in Administrative Services.

Included in Part II, Capital Projects Budget, is reauthorization and additional Restricted Funds of $7,500,000 in fiscal year 1998-99 and $3,500,000 in fiscal year 1999-2000 for the Kentucky Heritage Land Conservation Fund. Also included is Investment Income of $100,000 each year of FB 1998-2000 to establish a maintenance pool for the Cabinet to make minor repairs at 13 sites owned by the Cabinet throughout the state.

Part III, General Provisions, provides for the transfer of General Fund appropriation amounts related to Technology Trust Fund savings from one budget unit to another budget unit within the Natural Resources and Environmental Protection Cabinet. The provision reads as follows: Any transfer of General Fund appropriation amounts related to Technology Trust Fund savings from one budget unit to another budget unit shall be made only within each specified Cabinet and the Department of Education and shall be limited to the General Fund cost savings amounts identified in the 1998-2000 Executive Branch budget recommendation and executive records. The Secretary of any of the specified cabinets and the Commissioner of the Department of Education may submit requests to the State Budget Director of the Governor's Office for Policy and Management for the transfer of General Fund appropriation authority. Such requests shall specify the need for the transfer of General Fund appropriation authority and the manner in which such a transfer would better achieve the General Fund cost savings. Any transfers made under this provision for any of the cabinets identified above or the Department of Education shall result in no change to the total value of the General Fund cost savings amounts as identified in the 1998-2000 Executive Branch budget recommendation and executive records for the individual cabinets specified above or the Department of Education. Any transfer made under this provision shall be made pursuant to KRS 48.500 and shall be reported, in writing, to the Interim Joint Committee on Appropriations and Revenue.

The Part IX language provision relating to Budget Administration reads as follows: To the extent that the Cabinet Secretary determines that the functions and responsibilities of the General Administration and Support budget unit can be performed with fewer positions than budgeted in fiscal biennium 1998-2000, the positions and savings realized by the reductions may be transferred to other budget units within the Cabinet to meet unanticipated workloads or increased demands. The Secretary shall recommend any proposed plan to the State Budget Director for review and concurrence prior to the transfer. Upon concurrence and prior to the transfer of the positions and funds, the Secretary shall present the proposed plan to the Interim Joint Committee on Appropriations and Revenue.

Part X, General Fund Surplus Expenditure Plan, provides a contingent appropriation of $70 million to the EMPOWER Kentucky Technology Trust Fund to complete the projects authorized by the 1996 General Assembly; however, projects and their associated costs are not itemized. No funds are provided directly to the Cabinet from the Technology Trust Fund for the approved EMPOWER Kentucky Simplified Regulatory Initiatives which includes the Kentucky Facilities Index, a cross-Cabinet initiative involving the Department of Agriculture and Cabinet for Health Services, and Electronic Permitting Systems Initiatives. Completion of the Simplified Regulatory Initiatives in FB 1998-2000 was requested as the highest Cabinet priority in the Capital Projects Budget at a total of $15,302,000 to complete the Initiatives, including a current year request for $6,688,000.

The budgeted permanent full-time (PFT) complements are: Commissioner's Office - 23; Water - 278; Air - 179; Waste Management - 217; Maxey Flats - 6; and Environmental Services - 45. The Department must further reduce its complement by one position in fiscal year 1998-99 and two positions in fiscal year 1999-2000 attributed to the EMPOWER Kentucky/SAS savings. The total budgeted PFT complement for fiscal year 1999-2000 is 746. For comparison purposes, the PFT complement for fiscal year 1997-98 was 732.

Continued

The Branch Budget includes additional non-General Fund items as follows: Federal Funds of $46,000 in fiscal year 1998-99 and $48,000 in fiscal year 1999-2000 for an economist to staff the state-wide watershed management initiative; Federal Funds of $4,083,000 in fiscal year 1998-99 (representing 3 federal fiscal years) and $1,361,000 in fiscal year 1999-2000 (representing 1 federal fiscal year) for the Rural Communities Hardship Grants for wastewater facilities construction projects in eligible communities and must be combined with at least a 15% loan from the Kentucky Infrastructure Authority; Restricted Funds of $196,000 in fiscal year 1998-99 and $207,000 in fiscal year 1999-2000 to implement a mandated vehicle inspection and maintenance program for Northern Kentucky; Federal Funds of $1,709,500 in fiscal year 1998-99 and $1,779,000 to implement the Safe Drinking Water Act provisions; Restricted Funds of $2,300,000 in each fiscal year for the Waste Tire Cleanup Fund contingent upon passage of enabling legislation; and Federal Funds of $41,500 in fiscal year 1998-99 and $44,000 in fiscal year 1999-2000 to establish total maximum daily loads standards for discharge of pollutants into streams.

Notwithstanding KRS 224.43-320, no funds are provided for the assignment of full-time inspectors to each municipal landfill.

Included in the recommendation for the Kentucky Pollution Prevention Center, the state's technical assistance center for pollution reduction pursuant to KRS 224.46-580(14) are Restricted Funds from the Waste Assessment Fund of $562,500 in fiscal year 1997-98 and $443,000 in each year of FB 1998-2000, and Federal Funds of $171,000 in each year of FB 1998-2000.

Restricted Funds of $6,676,500 in fiscal year 1998-99 and $7,897,000 in fiscal year 1999-2000, generated by the Air Emission Fee, are budgeted at the federal-presumptive minimum level ($33.78/ton in fiscal year 1998-99 and $34.83/ton in fiscal year 1999-2000) to retain the delegated program under Title V of the 1990 Clean Air Act Amendments. Minor sources are charged a $150 fee. Federal law requires that an emissions fee be levied on facilities which generate certain air pollutants to support Title V programs. Kentucky does not charge any air permit fees. The actual billing rate for FB 1998-2000 will be based on the actual tonnage of emissions and the number of generators calculated from the Air Emission Inventory. The Clean Air Task Force established by the 1992 General Assembly and continued in each budget bill is not provided for in the FB 1998-2000 State/Executive Branch Budget Bill.

The Part IX language provision relating to Budget Administration reads as follows: To the extent that the Cabinet Secretary determines that the functions and responsibilities of the Environmental Protection budget unit can be performed with fewer positions than budgeted in fiscal biennium 1998-2000, the positions and savings realized by the reductions may be transferred to other budget units within the Cabinet to meet unanticipated workloads or increased demands. The Secretary shall recommend any proposed plan to the State Budget Director for review and concurrence prior to the transfer. Upon concurrence and prior to the transfer of the positions and funds, the Secretary shall present the proposed plan to the Interim Joint Committee on Appropriations and Revenue.

BRANCH BUDGET

The Branch Budget recommends reduced funding for existing services and programs in FB 1998-2000 by not funding some vacancies existing on August 1, 1997; by adjusting the retirement factor included in the request (9.24%) to the recommended July 1998 actuarial level (8.03%); and by reducing General Fund dollars attributable to the EMPOWER Kentucky administrative initiative. General Fund EMPOWER savings are budgeted in the amount of $59,800 in fiscal year 1998-99 and $114,200 in fiscal year 1999-2000. The budgeted permanent full-time (PFT) complements are: Commissioner's Office - 5; Forestry - 211; Conservation - 22; and Energy - 11. The budget unit must further reduce the PFT complement by two positions each year of FB 1998-2000 attributed to the EMPOWER Kentucky/SAS savings.

The total budgeted PFT complement for fiscal year 1999-2000 is 247. For comparison purposes, the PFT complement for fiscal year 1997-98 was 251. The reduction occurs in the Division of Forestry which had 17 vacancies on August 1, 1997, out of a PFT complement of 213. Two of these vacancies were restored in the base, and 13 PFT are recommended as expansion personnel to conduct timber inventory activities. The net budgeted PFT complement for Forestry in fiscal year 1998-99 is 211.

Provided in the Operating Budget base is $115,000 to replace forestry equipment totaling over $2.5 million requested by the agency. The Capital Projects Budget includes a General Fund appropriation of $500,000 in fiscal year 1998-99 to replace forestry equipment.

The Branch Budget includes funding for the proposed Forest Conservation Act of additional General Fund amounts of $592,500 in fiscal year 1998-99 and $483,500 in fiscal year 1999-2000 to hire entry-level staff for the following programs: 3 PFT to provide resource education to more than 300,000 private forest landowners and 2,000 loggers, and 10 PFT to conduct forest inventories. The 10 foresters and forest rangers are to inventory 20% of the established plots (500 to 600) each year which will provide a complete inventory of the state every 5 years. Currently inventories are conducted by the U.S. Forest Service on a 10 to 13 year cycle.

A General Fund amount of $240,000 is continued in each fiscal year for the costs of emergency forest fire suppression. The language provision states that if any costs arise in excess of this amount, upon recommendation of the State Budget Director, the Secretary of the Finance and Administration Cabinet may approve the expenditure by written order, subject to the conditions and procedures of the State/Executive Branch Budget Bill.

Notwithstanding KRS 262.640, a minimum of $219,000 in fiscal year 1998-99 and $181,000 in fiscal year 1999-2000 in Restricted Funds from the Equipment Loan Revolving Fund are budgeted for the operation of the Division of Conservation.

The Part IX language provision relating to Budget Administration reads as follows: To the extent that the Cabinet Secretary determines that the functions and responsibilities of the Natural Resources budget unit can be performed with fewer positions than budgeted in fiscal biennium 1998-2000, the positions and savings realized by the reductions may be transferred to other budget units within the Cabinet to meet unanticipated workloads or increased demands. The Secretary shall recommend any proposed plan to the State Budget Director for review and concurrence prior to the transfer. Upon concurrence and prior to the transfer of the positions and funds, the Secretary shall present the proposed plan to the Interim Joint Committee on Appropriations and Revenue.

Continued

Included in Part II, Capital Projects Budget, is General Fund dollars of $500,000 in fiscal year 1998-99 to replace Forestry vehicles and heavy equipment, and Investment Income of $200,000 in fiscal year 1998-99 to remove underground storage tanks owned by Forestry.

The House provides additional General Fund moneys of $200,000 each year of the biennium to restore nine forest rangers and foresters authorized by the 1996 General Assembly for landowner technical assistance programs and forest fire suppression activities. The House provides fire suppression cost recovery authorization for costs in excess of $240,000 annually as a necessary governmental expense which shall be paid from the General Fund Surplus Account (KRS 48.700) or the Budget Reserve Trust Fund Account (KRS 48.705). Also provided is General Fund support of $1,000,000 each year of the biennium for the Conservation Cost Share Program to assist landowners install best management practices to mitigate nonpoint source pollution from agriculture and silviculture activities. The House restores the interest earnings to the Equipment Revolving Loan Fund pursuant to KRS 262.640 as established by the 1948 General Assembly by providing General Fund support of $219,000 in fiscal year 1998-99 and $181,000 in fiscal year 1999-2000.

BUDGET MODIFICATION REPORT
BRANCH BUDGET

The Branch Budget recommends reduced funding for existing services and programs in FB 1998-2000 by not funding 19 vacancies existing on August 1, 1997; by adjusting the retirement factor included in the request (9.24%) to the recommended July 1998 actuarial level (8.03%); and by reducing General Fund dollars attributed to the EMPOWER Kentucky administrative initiative. General Fund EMPOWER Kentucky/SAS savings are budgeted in the amount of $48,800 in fiscal year 1998-99 and $89,400 in fiscal year 1999-2000. The budgeted permanent full-time (PFT) complements are: Commissioner's Office - 20; Permits - 96; Field Services - 235; and Abandoned Mine Lands - 86. The Department must further reduce the PFT complement by one position in each year of FB 1998-2000.

The total budgeted PFT complement for fiscal year 1999-2000 is 424. For comparison purposes, the PFT complement for fiscal year 1997-98 was 443; the PFT complement for fiscal year 1995-96 was 483.

Included in the base is Federal Funds of $1,262,000 in fiscal year 1998-99 and $1,300,000 in fiscal year 1999-2000 for the Small Coal Operator's Assistance Program.

Surface coal mining permit and acreage fees are deposited into the General Fund and are expended for two purposes: to pay debt service on the University of Kentucky Mines and Minerals Building and to return 1/3 to the counties where the operation is located. Included in each fiscal year is $675,000 from the General Fund for the transfer to eligible county fiscal courts for general expenditure purposes as provided in KRS 350.139. The State/Executive Branch Budget Bill provides appropriation authority for any required expenditures in excess of $675,000.

The Part IX language provision relating to Budget Administration reads as follows: To the extent that the Cabinet Secretary determines that the functions and responsibilities of the Surface Mining Reclamation and Enforcement budget unit can be performed with fewer positions than budgeted in fiscal biennium 1998-2000, the positions and savings realized by the reductions may be transferred to other budget units within the Cabinet to meet unanticipated workloads or increased demands. The Secretary shall recommend any proposed plan to the State Budget Director for review and concurrence prior to the transfer. Upon concurrence and prior to the transfer of the positions and funds, the Secretary shall present the proposed plan to the Interim Joint Committee on Appropriations and Revenue.

In Part II, Capital Projects Budget, authorization is provided to continue leasing the rental space at Hudson Hollow Office Park which houses the majority of the Department, not including the Division of Abandoned Mine Lands. A total of 50,025 square feet is leased at a rate of $7.75/sq. ft. for a total annual cost of $387,700. The current lease expires on June 30, 1998, with the new lease estimated to cost $8.16/sq. ft. for a total annual cost of $408,000.

The Cabinet requested consolidation of its leased space in the Operating and Capital Projects Budget which was not included in the recommendation.

BUDGET MODIFICATION REPORT
BRANCH BUDGET

The Branch Budget recommends funding for existing activities and operations in FB 1998-2000 including General Fund support of $359,000 in fiscal year 1998-99 and $369,000 in fiscal year 1999-2000 for the Locks and Dams Program which was transferred to the Kentucky River Authority (KRA) from the Department for Natural Resources on August 15, 1997 (Executive Order 97-1040). These funds provide personnel, operating, and capital outlay support for 10 seasonal lockmasters and for activities such as management and operations of Locks and Dams 5-14 (10 sites covering 180 acres), locking and river navigation-related activities, and operating the Kentucky River Water Release System.

Other KRA watershed management programs and activities are supported by Restricted Funds receipts from water use fees collected from facilities withdrawing water from the Kentucky River watershed, except water used primarily for agriculture purposes, pursuant to KRS 151.720. Tier I fees are collected on withdrawals from the entire watershed for operating expenses of a 4 person staff and for basin-wide water quality and supply, education, and River-related programs. Included in the personnel expenditure category is $229,000 in fiscal year 1998-99 and $241,500 in fiscal year 1999-2000 for services such as circuit rider assistance and leak assessment for local water districts, river bank cleanup projects, zebra mussel testing, and education and training. Included in the grants category is $752,000 in fiscal year 1998-99 and $769,500 in fiscal year 1999-2000 for activities such as water quality studies and models, North Fork clean water projects, ground water surveys, precipitation data information, and analysis and management of the Kentucky River Water Release System. Tier I fees are continued at a rate of 2.2 cents per 1,000 gallons.

Tier II water use fees are collected for withdrawals from the main stem supply and used for capital projects that manage and enhance the available Kentucky River water resources, such as installation of water release valves in the locks. Debt service from Tier II fees of $194,000 in fiscal year 1998-99 and $388,000 in fiscal year 1999-2000 is provided for $2 million Agency Bonds authorized in fiscal year 1998-99 and $2 million previously-authorized Agency Bonds reauthorized in FB 1998-2000 for the Water Release System. Tier II fees are continued at a rate of 1.6 cents per 1,000 gallons.

Continued

The Part IX language provision relating to Water Withdrawal Fees reads: The water withdrawal fees imposed by the Kentucky River Authority shall not be subject to state and local taxes. Notwithstanding that portion of the provision of KRS 151.710(10) that directs the Natural Resources and Environmental Protection Cabinet to provide administrative services for the Kentucky River Authority, Tier I water withdrawal fees shall be used to support the operations of the Authority and for contractual services for water supply and quality studies.

Included in Part II, Capital Projects Budget, is reauthorization of $2 million Agency Bonds and additional Restricted Funds of $800,000 and Agency Bonds of $2,000,000 in fiscal year 1998-99 to renovate and modify the lock systems at Dams 5-9 for the Kentucky River Water Release System. Also included is Restricted Funds of $302,000 in fiscal year 1998-99 to remove the upstream land guard wall at Lock 6 to eliminate the public safety threat that presently exists. Reauthorization is also provided to acquire Locks and Dams 5-14 and the adjacent lockmaster properties from the U.S. Army Corps of Engineers upon completion of repair work to the dams and lead contamination mitigation on adjacent properties.

BRANCH BUDGET
The Branch Budget recommends funding for existing services and programs with the following exceptions: Current Year FY 1997-98 General Fund dollars of $350,000 are recommended for the endoscopic examination of racehorses for sponges. These funds are continued in the amount of $343,000 for FY 1998-99 and $347,000 in FY 1999-00. The language provision in Part I suspends KRS 230.217(3), which guarantees a balance each year effective July 15, 1993 for the Breeders' Award Fund and requires the General Fund to supplement Restricted Funds in the event the balance is not met. Suspension of this statute relieves any General Fund obligation. General Fund EMPOWER Kentucky/SAS savings are budgeted in the amount of $400 in FY 1998-99 and $400 in FY 1999-2000.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs in FB 1998-2000 with the following additions: Road Fund moneys in the amount of $2,300,000 is recommended in FY 1997-98 to support the reissuance of passenger license plates. This support is continued in FY 1998-99 with the recommended appropriation of $838,000 from the Road Fund. Road Fund moneys totaling $325,500 and $477,500 are provided in each respective year of the next biennium to support the Empower Kentucky initiative for motor vehicle enforcement. This initiative emphasizes generating more revenue rather than spending reductions and is to be accomplished by enhancing the data entry and transfer system. The Branch Budget also recommends $480,000 in FY 1998-99 and $523,000 in FY 1999-2000 from the Road Fund to include Motor Vehicle Enforcement Officers in the Hazardous Duty Retirement System.

HOUSE BUDGET

The House concurs with the Branch Budget Recommendation with the following exception: Support for the replacement of License Plate was reduced by $838,000 in Road Fund moneys in FY 1998-99.

BUDGET MODIFICATION REPORT
BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs in FB 1998-2000. Included withing the funding for existing services and programs are Road Fund moneys totaling $1,160,000 in FY 1998-99 and $1,218,500 in FY 1999-2000 to maintain the following activities: Increased expenditures related to the Washington, D.C. office and Appalachian Regional Commission dues; maintain an adequate level of information technology support staff; and maintain auditing services to assure compliance by highway users with state tax laws. Road Fund debt service is recommended in the amount of $6.5 million in FY 1999-2000 to support $68.1 million in construction moneys for a new $87 million, 420,000 square foot state office building. The bond proceeds will be combined with $18.9 million of bond balance from a previously authorized General Fund supported bonds in the Finance and Administration Cabinet's Branch Budget. The intent of the original $21 million bond authorization was to support the asbestos abatement project at the existing State Office Building. Approximately $3 million of the $21 million bond authorization have been issued and obligated toward that project. Future plans for that project have been delayed until the new State Office Building is completed and the Transportation Cabinet can move out of the existing building. The Branch Budget recommends that the remaining $18.9 General Fund supported bonds be reauthorize and modified to support this new building. Additional funding is provided from the Road Fund in the amount of $230,000 in FY 1998-99 and $305,000 in FY 1999-2000 to implement proposed legislation relating to the Extended Weight Road System Road Fund moneys are recommended to support several technology related initiatives.

Continued

An Empower Kentucky project totals $875,000 in FY 1998-99 and $590,500 in FY 1999-2000 from the Road Fund. The purpose of the Empower Kentucky Highway Operations process is to better manage the Transportation Cabinet's personnel and equipment resources assigned to maintain and operate Kentucky's 27,000 mile state maintained highway system. Three systems: Maintenance Management System (MMS); an Equipment Management System (EMS); and a Maintenance Rating Program (MRP) will be developed. The MMS will allow management to monitor daily productivity of maintenance and traffic crews, personnel and equipment usage, and costs. EMS will allow management to monitor daily equipment usage and costs, as well as capturing costs associated with repairing equipment. All of this information will be used to establish an equipment replacement schedule which will dictate the optimum time for purchasing and disposing of equipment. Implementation of these two major changes will require the procurement of technology. Thirdly, MRP will measure the performance of the Cabinet and its work units in regard to the Highway Operations budget and work program.

Road Fund moneys in the amount of $665,000 and $274,500 are recommended in each respective of the next biennium to support the development of the Commercial Vehicle Information System Network (CVISN). This CVISN initiative partners with the EMPOWER Kentucky Motor Vehicle Enforcement Process to improve safety at the roadside.

Road Fund moneys are recommended in the amount of $975,000 and $150,000 in each respective year of the next biennium to support the impact of the Year 2000. This request attempts to address continuing computer-related "Year 2000" problems presented by turn of the century. Included in this overall effort is the replacement of 1000 desktop computers, modifications to engineering and administrative systems on the mainframe and on desktops, plus several other ongoing efforts.

Road Fund moneys in the amount of $2.5 million in FY 1998-99 and $2.2 million in FY 1999-2000 are recommended to upgrade the Cabinet's computer system. The recommendation includes $100,000 in the Engineering Graphics Initiative for a document management study as part of the EMPOWER Kentucky Project Development Process.

The Branch Budget recommends additional funding totaling $230,000 in FY 1998-99 and $305,000 in FY 1999-2000 to support staff necessary to audit and provide protest resolution activities relating to Transportation Cabinet's proposed legislation for the establishment of the Natural Resource Extended Weight Users' Tax and the Coal Transporter Extended Weight User's Tax. This legislation places the responsibility for complying with the maximum weight limits for vehicles transporting these materials on the "owner" of the coal or other natural resources. The proposed legislation provides authority for the Transportation Cabinet to inspect documents relating to these loads, such as weigh bills, bills of lading, payment records, etc. in order to ensure that the maximum weights are being observed.

The Branch Budget's recommends several new county maintenance facilities in the 1998-2000 Capital Budget. Included in this budget are maintenance facilities in Bullitt, Hopkins, Lewis, Magoffin (Reauthorization), Meade (Reauthorization), and Metcalfe Counties. A new District Office building is recommended at Bowling Green (Reauthorization/Modification) and an addition will be built on to the Pikeville District Office. As noted above, a new State Office Building is recommended in Frankfort.

Continued

Road Fund moneys are provided in the Capital Budget to repave roads in the Kentucky Horse Park and to support roadway maintenance at various parks around the state.

The Branch Budget recommends two technology related items in the Capital Budget. A "Digitized Drivers Licensing" project totals approximately $2 million each year to electronically capture information for Kentucky drivers license. Road Fund moneys totaling $1.7 million in FY 1999-2000 are recommended to support a Vehicle Titling and Registration System (KVIS), an Empower Kentucky project.

BUDGET MODIFICATION REPORT
BRANCH BUDGET

The Branch Budget recommends reduced funding for existing services and programs in FB 1998-2000 with the following exceptions: Effective July 1, 1998, staff support and operating functions relating to facilities management/maintenance for the postsecondary technical education programs will be transferred to the Kentucky Community and Technical College System (KCTCS). The Branch Budget recommendation includes a reduction in General Fund support totaling $1,905,500 in FY 1998-99 and $1,954,500 in FY 1999-2000 relating to this transfer of responsibilities.

In addition, the Debt Service requirements for the Workforce Development Cabinet for FB 1998-2000 have been included in the funding support for the Finance and Administration Cabinet. The budgeted amount for Debt Service for the current fiscal year, as provided in the General Fund support identified above, totals $3,641,000.

The Branch Budget recommends Federal Funds support for FY 1998-99 for the One-Stop Career Centers System totaling $2,165,000. This program is scheduled to expire at the end of FY 1998-99; therefore, no funding support is recommended for FY 1999-2000. The Branch Budget recommendation provides no General Fund support to supplant the loss of the Federal Funds support for this program.

The Branch Budget recommends Federal Funds support totaling $2,036,000 in FY 1998-99 and $325,000 in FY 1999-2000 for the School to Work Program which is scheduled to "sunset" on September 30, 1998, with responsibility to continue the program becoming an obligation of the state. The Branch Budget recommendation provides no General Fund support to supplant the loss of the Federal Funds support for this program.

The Branch Budget recommends additional Restricted Funds support totaling $131,500 in FY 1998-99 and $138,000 in FY 1999-2000 to provide the funding necessary to support 4 existing permanent full time positions not contained within the Base Level Budget.

General Fund EMPOWER KY Simplified Administrative Services savings are budgeted in the amount of $191,500 in FY 1998-99 and $209,000 in FY 1999-2000.

Continued

The Branch Budget recommends, pursuant to Part II, Capital Projects Budget, of the State/Executive Budget Bill, Investment Income totaling $250,000 in each fiscal year be provided for a Maintenance Pool.

Pursuant to Part III, General Provisions, of the State/Executive Budget Bill, the Secretary of the Workforce Development Cabinet may request the State Budget Director to transfer General Fund amounts related to the Technology Trust Fund savings from one budget unit to another within the Workforce Development Cabinet. Any such transfers shall be limited to the General Fund cost savings and reported to the Interim Joint Committee on Appropriations and Revenue in accordance with KRS 48.500.

HOUSE REPORT

The House concurs with the Branch Budget recommendation with the following exception: Additional General Fund support totaling $700,000 in each fiscal year is provided for operating costs and grant expenditures relating to the School to Work Program.

BUDGET MODIFICATION REPORT

The Branch Budget recommends continued funding for existing services and programs in each year of the Biennium with the following General Fund additions: The sum of $200,000 is provided in each year of the Biennium to provide the funding for a member to retire at normal retirement age with 20 or more years of service in the retirement system of which 19 years are judicial service.
